The Cuyahoga County Board of Elections Voting Method

Voters will use optical scan paper ballots to cast their votes.

The optical scan paper ballots are easy to use. Simply fill in the oval located next to your selection for a candidate or choice of an issue.

Common ballot problems occur when people vote for too many candidates in one race or when they cast their ballots in the wrong precinct.

Make sure you are at the correct precinct table at your location.

Make sure you read your ballot carefully and understand how many candidates to vote for. If you have a question, please ask a Poll Worker.

If you make a mistake on your ballot, return it to a Poll Worker and ask for a new one. You can request up to two replacement ballots.

Be sure and double check your ballot for accuracy. Improperly marked votes will not be counted. Once your ballot is scanned and accepted, your vote is final.

If a voter has a disability that needs to be accommodated, voting devices that are compliant with the Americans with Disabilities Act will be available at each location.
